Discover *The Life Chest* ADVENTURES SERIES

My writing team and I are thrilled to present the Life Chest Adventures Series - a truly original saga that blends futuristic science fiction, ancient magic, and epic journeys across time. This eleven-book series is divided into three interconnected story arcs, each exploring the mysteries and powers of the legendary Life Chests. Ideal for preteens, teens, and young adults - fun for the whole family. Perfect for Percy Jackson fans and anyone who loves National Treasure-style adventures.

Series One: The Life Chest

The adventure begins with cousins Josh and Bernie, whose lives are forever changed when they discover keepsakes in their **Great-Great-Grandpa Kim's magical Life Chest, known as the Traveler**. Each artifact holds a secret, launching them into perilous treasure hunts in distant lands. As they fill the chest with stories and treasures, Josh and Bernie gradually unlock its ancient alchemy, revealing a world where cherished memories and artifacts possess real magical power.

Series Two: Extreme Adventures

The second arc introduces April, Josh's granddaughter, who has grown up hearing tales of her family's extraordinary exploits. As she comes of age, April adopts the nickname Zen and sets out on her own adventures. After a tragic expedition to a lost Egyptian city, Zen returns home in grief, having survived only through her grandfather's ultimate sacrifice. In her sorrow, she discovers a mysterious keepsake chest left as her family legacy. Thanks to the chest's magical alchemy, **Zen gains the ability to travel through time, setting her on a path of discovery and transformation**. As Zen's powers grow, she finds herself at the heart of a war between two magical guilds—a conflict that has raged since the fall of Atlantis over seven thousand years ago. To conceal her missions, Zen creates a travel agency, **assembling a diverse team equipped with AI-powered robotic backpacks known as botpacks**. Together, they explore exotic locales in the world of 2171, facing challenges that test their courage and ingenuity.

Series Three: Infinite Adventures

In the ongoing third series, Zen uncovers the origins of Indigo Magic when she meets Theo, the grandson of the Greek god Poseidon. Together, they have a daughter, Safae, whose unique ancestry grants her powers beyond those of her parents. Safae, like Zen, faces life-threatening adventures and receives magical mentoring. Mother and daughter unite their gifts to battle the ancient forces of Crimson Dark and a modern-day syndicate, fighting for the future of humanity. The Life Chest Adventures Series soars with futuristic action and ancient magical battles, set against breathtaking worlds of the past and future. At its heart, it is an inspiring tale of loss, redemption, and coming of age, as Zen and Safae learn to connect with the past, present, and future - and strive to live a life without limits while trying to save the world.
